

Solar Power Will Play a Vital Role in Our Future

Here's one way we are educating our community.

SOLAR CUP

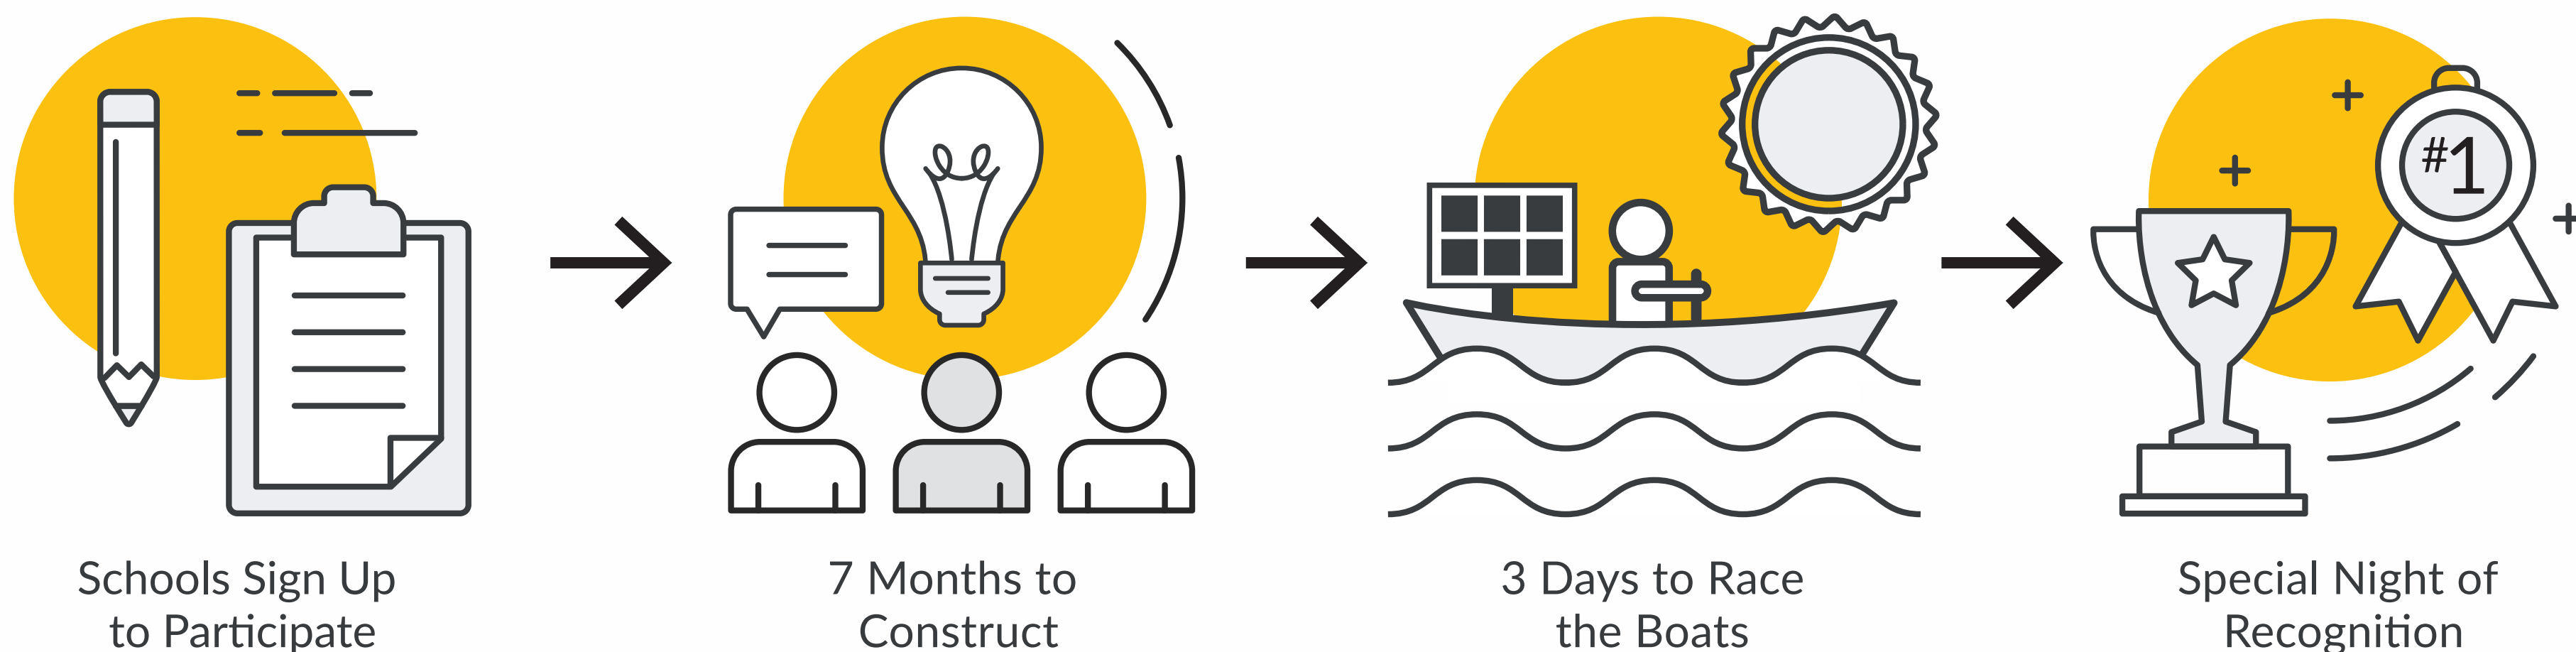

Burbank Water and Power is a Community-Owned Utility

Solar Cup provides a way for BWP to educate and engage with our future stakeholders, as well as encourage students to pursue careers in engineering and environmental sciences.

Solar Cup is an Education Program for SoCal High School Students

Teams of students design, build and race solar-powered boats. Students learn about conservation of natural resources, solar energy, electrical and mechanical engineering, problem solving, teamwork, and more. **Here's how it works:**

Watch a PSA Made by Burbank Students!

Burbank students created one of the top five conservation PSAs in the 2018 Solar Cup. Watch the video by scanning the QR code with your phone or by visiting youtu.be/I_DFWrrgLFQ?t=399

Always There for You!
