

# Roseville Electric Utility: The Next Generation of High Performance Homes

## Goals & Highlights:

- Ready residential new construction market for 2019 code and 2020 ZNE policy goals
- Support builders in adopting high-impact measures and best practices
- Energy Design Rating used to determine eligibility & incentive levels

- Incentives delivered through program range from \$195 - \$3,500 per home
- Currently working with Lennar, JMC, Meritage, Elliot, and Pulte

## Program & Incentive Approach

### Prerequisite Measures

### Bonus Measures

### Future Measures
